

# BGI051H

## Manual chip implanting equipment

Card manufacturing equipments

### Product description

The BGI051H is a small desktop manual machine. The equipment realises the insertion of the chip onto the card. It uses the hotmelt technology.

### Advantages

- used for standard production, low runs, prototypes, lab process tests, material validation
- throughput of up to 550 units per hour depending on configuration
- suitable for thicker cards (ex : Plug Up cards production)

### Different version

**BGI114H** version : equipped with 2 heating heads (p.17)

### Technical specifications

DIMENSIONS			
Length	Width	Height	Weight
660 mm	570 mm	610 mm	40 kg
TEMPERATURE			
Operating		Storage	
+5°C to +50°C		-20°C to +60°C	
ELECTRICAL CHARACTERISTICS			
Power : 100-240V AC ; Frequency : 50-60Hz single phase ; Intensity : 3,15A			
PNEUMATIC CHARACTERISTICS			
6 bars			
IN CONFORMITY WITH CE DIRECTIVES			

### Markets

Banking, GSM, Telecom, e-ID card, health card, prepaid card, gift card, loyalty card ...
