

Feature & Description

The BGI076A is a pre-cutting tool for ID1 cards. The pre-cuttings create blades of overlay on the card and enable to pull easily each blade with the pliers of the peel strength equipment.

- Stand alone desktop equipment

Advantages

- Tests for contact cards, magstripe cards, dual cards, combi cards
- Used before performing the peel strength test
- Safe tool compared to cutter
- Easy to use

Description

- Width: 415mm
- Depth: 400mm
- Height: 160mm
- Weight: 5.4kg

Facilities / Environmental conditions

- Operating temperature: +5°C to +50°C
- Storage temperature: -20°C to +60°C

Tool characteristics

- Cuts 5 blades of overlay

Norms references for peel strength test

- CQM 10.3.11
- Test Methods ref P-11
- ANSI 322.2008 5.2
- ISO 10373-1 5.3

Designation

Peel strength pre-cutting tool

Order reference number

BGI076A
